■ Featured ITSMP Program

Learning from the Leaders

Formed in 1996, The Information Technology Senior Management Forum (ITSMP) is the only national organization dedicated exclusively to fostering upper-level executive talent among African-American IT professionals. We provide a supportive network for enhancing the leadership skills of the IT executives who make up our membership. Our formal mentoring program helps dedicated mid-level managers grow into executive roles.

We draw our strength from two major sources. Our members — senior IT executives from corporations, governmental bodies, and universities or owners of well-established technology businesses — share the knowledge and skills that have enabled them to arrive and thrive in key management roles. We also benefit from the funding and expertise provided by corporate partners interested in fostering and recruiting African-American executive talent.

What We Are About

It is a true network for senior African-American IT executives. Our mission is to fill the executive pipeline with the next generation of African-American IT professionals while fostering the continuing professional development of the ITSMP membership. Our activities develop leadership skills and competencies so that career advancement does not stop at middle management.

How We Connect

ITSMP activities center around quarterly meetings hosted by our members and sponsored by major corporations. These meetings are held at locations throughout the United States. Between meetings, we stay connected through our Web site, newsletter, and monthly committee meetings focused on specialized topics.

A Member Perspective

Curvie Burton
ITSMP Chairperson
Senior Director
EDS

"I am impressed with ITSMP. it allows me an opportunity to sit in a room with company directors, CIOs, and vice presidents - people making a major impact on the technology industry and the use of technology in solving business problems. ITSMP is focused on a common goal: to develop and motivate people like us to become even better leaders."

JOHNNY BISHOP PRESENTS THE TRUTH SESSIONS:

TRUTH sessions

WELCOME TO THE TRUTH!

You are a witness to the genesis of a divine relationship between faith and art. Get ready to be introduced to a new vision for Gospel Hip-Hop and creating a bridge to a world we need to reach.

The "Truth Sessions" are intended to be a series of music and spiritual tools to be used by ministries, ministers, soldiers, and children of God to show the various expressions of Christian exaltation and witness through music. As this is just the prototype EP, we want to begin painting a canvas of soundwaves for everyone to hear, envision and feel, from Spoken Word, Gospel, R&P and of course Hip Hop. Prepare to witness Christianity in audible motion.

Please keep checking back for updates and community surrounding this vision and indeed, more music to come.

Enjoy the music.
